

## Learning Journey: Year 7 Volcanoes

### **Know it!**

Knowledge		RAG?
I know...	.... the structure of the earth.	
I know...	... that the earth's crust is split into many plates which move.	
I know...	...that there are 3 plate boundaries and can describe the key differences.	
I know...	...how a volcano forms.	
I know...	...the features of a shield volcano.	
I know...	...the features of a composite volcano.	
I know...	...why people choose to live near volcanoes.	

### **Prove it!**

You will prove your understanding by ongoing questioning in class each lesson. There will also be a small homework based quiz and an opportunity to demonstrate your understanding through a homework task. There is no end of unit assessment for this unit. It will, however, appear on your end of year test.

### **Link it!**

There are links to previous work in Geography and Science in Primary school. You will return to this topic and add to it further as you move through Pilton, particularly exploring earthquakes, if you go on to study GCSE Geography.

### **Say it!**

Vocabulary	Definition
Core	
Crust	
Conservative boundary	
Constructive boundary	
Destructive boundary	
Volcano	
Viscous	
Composite volcano	
Shield volcano	
Geothermal
