

Learning Journey: How can we lessen the impact of climate change?

Know it!

Knowledge		RAG?
I know...	...what climate change is.	
I know...	... how our climate has changed.	
I know...	... what is meant by the term anthropogenic.	
I know...	... how humans cause climate change.	
I know...	... what is meant by the enhanced greenhouse effect.	
I know...	...who the IPCC are.	
I know...	... what the IPCC found out in their 2021 report.	
I know...	... the difference between adaptation and mitigation	
I know...	... the actions that can be taken at a variety of scales to reduce climate change.	

Prove it!

Lesson 4 of this unit will be an assessment which will include questions on your first topic and the first three lessons of this topic. This topic will also feature on your second and third assessments later in the year.

Link it!

This is the most vital topic in Geography. What you learn here links back to year 7 and forward through all of your Geography lessons, and some science ones too!

Say it!

Vocabulary	Definition
Climate change	
Interglacial	
Anthropogenic	
Greenhouse gases	
Enhanced greenhouse effect	
IPCC	
Carbon capture	
Climate crisis
