

The background of the entire slide is a photograph of a person from behind, standing in a field with their arms raised in a 'V' shape. They are wearing a white tank top and dark shorts. In the background, a city skyline is visible under a bright, hazy sky, suggesting a sunset or sunrise. The overall color palette is dominated by warm, golden-yellow tones.

video by Mrs Wilson-North,
Career Coordinator](#)

WEX @ PILTON

Dates

This year all Year 10 students will go out on Work Experience between Monday, 4th July and Friday, 8th July 2022.

WEX @ PILTON

Key Information

- All students will be expected to find a work placement
 - Career South West (CSW) will supply the crucial Health and Safety checks for the work placements and a charge of £32 per student is needed to cover this cost, payable via Parentpay. Students for whom the cost is a barrier can apply to our Work Experience bursary fund for assistance. Please see your tutor in the first instance.
 - A work experience log book costs £2, also payable by Parentpay.
 - If your child wishes to do a placement with a family member or a friend, the family member or friend's business must have Employer Liability insurance and must undergo the £32 Health and Safety check by CSW.
 - Out of Devon placements can happen but the checks will take longer and cost more.
- The deadline for CSW to carry out the checks is Monday 9th May, after which time they will charge an extra £20.

More Key Information

- Placements can be found by using the CSW database called WEBVIEW or employers can be approached directly. All placements will require the same paperwork completed - the 3 way consent form and a Health Declaration form. Forms will come out to you via tutors but spares are available in G2 or on the Beyond Pilton tab of the website.
- Students will be having next week's PSHE session in computer rooms so they can start exploring the WEBVIEW platform. They will need to make a note of employer emails and telephone numbers so they can contact them to ask for a placement.
- Mrs Miller will be on hand at some break-times and lunchtimes in G2 to help students, She will post the times she will be available on the door of G2.
- Getting started on finding and securing a placement is essential as time is short.

Students will receive Health & Safety training prior to joining their work placement.

Using WEBVIEW

WEBVIEW is the database provided by Career South West. It contains information on many employers and placements in a diverse range of workplaces. Students will have a login for this and can access it at any time. Once they have found a placement they like the look of, they can take contact details and get in touch with the employer. They will then need to fill in the paperwork and return it to Mrs Miller in G2. She will upload the information and keep the paperwork safe.

Students do not have to find a placement in this way but can approach employers directly.
