

German Links

One of the best ways to learn a foreign language is to watch TV, films and online clips in that language. This trains your brain to spot patterns, pick out key words and decode the meaning in the new language as you watch and listen.

It is also important to learn about the country, its people, culture and traditions.

The following slides contain links to content that you can read and watch online. We have put together a selection of recommendations for you, covering all sorts of clips, some short and some long, and some music, too. Choose clips that interest you and suit the amount of time you want to spend watching.

Maybe you could write a short review (in English or German) to let us know what you have watched and what you liked or didn't like about it.

We hope you enjoy what we have chosen.
