LEARNING at PILTON
What Students Need to Know

DIN

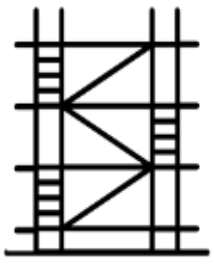
DO IT NOW - WHY?
We create DINs for you so that you can regularly recall important prior learning.

MODELLING & DEMONSTRATION - WHY?

- We use **I do, We do, You do** so that you can see what excellence looks like and can begin to replicate it.

CHECK UNDERSTANDING – WHY?
We use **cold-ca**ll to make sure you're all thinking hard all of the time. When you don't know the answer, we'll make sure we return to you – **no opt-out** – so that by the end you do know the answer.

THINKING TIME WHY?
We give you thinking time for questions and tasks – this is sometimes **think, pair, share**. This is so that we can hear your best thinking.



SCAFFOLDING - WHY?
We will make sure you have what you need to write well, this will include: **structure strips** and **1 to 1 support**

DELIBERATE PRACTICE - WHY?
We give you time to practise independently in the lesson so that you can grow your skills and apply your knowledge.

EXIT ROUTINES - WHY?
To ensure an efficient end to the lesson and a calm start to your next lesson, we'll ask you to stand behind your chair in silence and you'll be released a row at a time.

RESILIENCE * RESPECT * COURAGE * KINDNESS * TRUST * RESPONSIBILITY
